Looking Within & Beyond

(1) Student Takeaways

- Working with a real company
- Seeing how companies utilize technology
- Easy Internship opportunity
- Resume Building/ Employability

Challenges

- Little to no coding experience
 - Unfamiliarity with Github
 - Working in a Group
 - Geographical constraints
-

Looking Within and Beyond (2)

Faculty Takeaways

CEO

Academic Supervisor

LevelUp using ChatGPT

- helpful in fine tuning the narrative/ description
- Able to identify problems with code

LevelUp through Peer learning

- face to face (peer) tutorial is still more helpful than simply relying on AI

Importance of project-based or experiential Learning
