### Staff News

Marcia Davidoff has resigned as Director of the Biomedical Library. She is now the Manager of the Technical Information Center at the Naval Training Equipment Center in Orlando, Florida. We wish her well in her new endeavors.

Robert Donnell, the Associate Director, has been named Acting Director.

### Lost Books

An inventory of the books at the Medical Center Library has indicated that 169 books (or \$3,724.90) are lost or missing from the collection. If anyone sees any library books laying around or if anyone has inadvertently walked off with a book without having checked it out, during unstaffed library hours, please return the books so that the staff can properly account for them. It would be a shame to spend much needed book money on replacements only to have the books suddenly show up in the library.

### REFERENCE NOTES

#### U.S. Pharmacopeia/National Formulary

On July 1, 1980 the first combined volume of the U.S. Pharmacopeia and The National Formulary went into effect. It is the 20th revision of the Pharmacopeia and the 15th edition of the Formulary. This new revision includes some 200 more official monographs than were included in the individual volumes published at the end of 1974.

### ONLINE SERVICES

The Biomedical Library now has access to 125 Index Medicus journals within ten days of their appearance on library shelves. Ask about the BRS PRE-MED database for very recent articles in health science.

Online searchers at the Biomedical Library now can access the MEDLARS backfiles from 1975 to 1977 online through the BRS system.
