REFERENCE NOTES

Copyright Infringement Suit Settled

A campus copying company (Gnomon Corporation) and seven publishers (Basic Books--Harper & Row; CBS, Inc.--Holt, Rinehart & Winston; McGraw-Hill; Nelson-Hall; Prentice-Hall; Princeton University Press; and John Wiley & Sons) have settled a copyright infringement suit filed by the publishers in federal district court. The publishers charged Gnomon, which operates photocopy services near four college campuses, with reproducing copyrighted materials from books and periodicals without permission.

The settlement agreement "prohibits Gnomon from making more than one copy of a published work for the same person or group except under the following conditions: 1) Gnomon or the person requesting copies must obtain permission from the copyright owner; 2) A teacher at a nonprofit educational institution may request copies by certifying that the request complies with the March 19, 1976 'Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals.' (The Guidelines are part of the legislative history of the Copyright Act of 1976.)"¹

If you are unsure of your rights under the new copyright law, consult the Copyright Handbook (Donald F. Johnston: Bowker, 1978), now on Reference in the Biomedical Library (Campus location).

With the May 5 announcement in the Federal Register, the Department of Health, Education and Welfare became the Department of Health and Human Services.

ONLINE SERVICES

Our online Bibliographic Retrieval Services (BRS) now offers access to the database from which Public Affairs Information Service (PAIS) is produced. This social sciences indexing tool covers subjects concerned in the making and evaluation of public policy. Preference is given to factual over speculative or argumentative presentations. This file is a good resource for information about public figures' words or actions regarding public policy. Some of the topics of interest to health science personnel covered are:

| | |
|------------------|-------------------|
| Abortion | Medical Education |
| Birth Control | Nursing |
| Genetic Research | Radiation |
| Health Planning | Vaccination |
| Malpractice | |

Check with the librarians at the Biomedical Library for other possible coverage. You may call 460-7043 or 460-7044.

DONATIONS

The Biomedical Library would like to express its appreciation to the following individuals for donations which they have made to the Library:
